MillaWebs
Custom websites for local businesses

A website of your own for your business

Custom design, a free sketch and a fixed price. We help people find you, call you and book with you.

Design examples with fictitious businesses.

Who we are

A small team: one person talks with you and gets to know your business, the other designs and builds your website. You always talk to a real person.

- **People find you**
  On Google and Maps, with your hours, your address and your photos.
- **One tap to reach you**
  Call, WhatsApp or «directions», from their phone.
- **Bookings and orders**
  Tables, appointments or WhatsApp orders, with no commissions.
- **Your menu, up to date**
  With allergens and a table QR code that never expires.
- **More reviews**
  A link and a QR code to ask for them, the way Google allows.
- **Know what works**
  How many people visit each month, with no cookies or banners.
